

Michigan's Substance Use Vulnerability Index Part II: How to Navigate the Dashboard

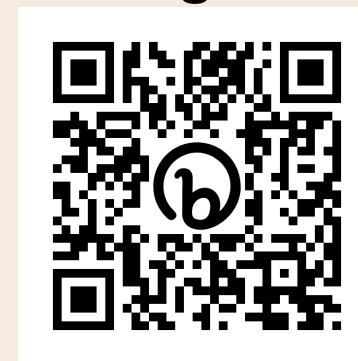

Please join the Michigan Opioid Collaborative for a presentation and discussion on an overview of the recently developed and released Substance Use Vulnerability Index (MI-SUVI) tool, available on the [MODA Data Dashboard](#). The MI-SUVI was developed to encourage data-driven decision-making and ranks counties (and now ZIP codes!) based on their substance use burden, substance use resources, and social vulnerability. This presentation will give an overview of the Substance Use Vulnerability Index (SUVI) Dashboard and an in-depth analysis of its content. Participants will have an opportunity to see a step-by-step process on how to pull county-level data along with SUVI data. Credits will not be offered for this roundtable. . Q&A and discussion to follow.

Presenter:

Gabrielle Stroh-Steiner, MPH,
Lead Drug Surveillance
Epidemiologist (MDHHS)

Sept. 21
12 PM - 1 PM
