

Kratom: Aggression and Psychosis

MCBAP/CME/Social Work CEU Credits Approved

Meets 1 Credit for the DEA SUD Training Requirements

Please join the Michigan Opioid Collaborative for a presentation on updated information on the clinical effects of kratom and its relationship with psychosis and aggression. The diagnosis and treatment of patients who present with symptoms of potential intoxication, psychosis, and aggression can be complicated, so other factors that may mimic or interact with kratom will also be reviewed. Q&A and discussion to follow.

Presenters:

Jonathan Morrow, MD, PhD
Michael Kates, DO,
FABFM, FAPFM

Oct. 4

12 PM - 1 PM
